GENERAL MANAGER'S REPORT

June 21st, 2021

McClure Reservoir projections have turned the District's focus solely to drought preparations. With the recent completion of the Districts barge, we are prepared to handle dropping water levels. All District wells are operational at this time. In addition, we are actively pursuing auxiliary water sources. District operations staff have worked diligently over recent years maintaining system leaks and replacing inoperable water meters. LDPCSD water loss numbers are at record lows. The District is prepared for this long arduous journey ahead.

In addition to finding me in my office, I can reached at the following:

- District phone (209) 852-2331
- E-mail Patrick@ldpcsd.org

Grant/Study Updates

- **USDA INTAKE GRANT** The finalized application is currently under review.
- CAL OES / POWER RESILIENCY I recently submitted a notice of intent to apply for additional funding possibilities. I attended a sub-application workshop webinar this month. I hope that the knowledge gained can assist in a successful application.

Current District Projects

- **EMERGENCY LEAK CREW** There have been four-service leaks since our last meeting. All lines were fully replaced.
- DISTRICT WELLS
 - RANCHITO I Operational
 - RANCHITO II Operational
 - MEDINA WELLS- Operational

- **FLUSHING/VALVE PROGRAM** In preparations of the eminent drought, we have halted the flushing program.
- ALAMO ALTITUDE VALVE REPLACEMENT- Postponed until La Grange Elementary School is out for summer break.
- ARBOLODA HYDRO PNEUMATIC STATION- Completed May 13th
- PLANT PH/TEMPERATURE MONITORING Installation in progress
- **BOAT PREPARATIONS** In preparation for pumping from our barge, District staff have prepared our 14' transportation vessel. The existing outboard motor was in need of repairs, however, we were unable to locate parts due to its age. A new 20 horsepower Mercury electric start outboard motor was purchased to ensure reliability.

Operations

- SYSTEM METER AUDIT We continue to identify non-operable meters within our system. District staff have replaced 205 under functioning meters since we began our audit January of 2020. In proposed FY2021/2022 Budget, we have set aside CIP funds to begin transitioning from antiquated meter reading system.
- **SERVICE ORDERS** 31 service order requests and numerous USA tickets were completed this past month within the District. Requests included meter reads, three meter replacements, and three potential customer leaks.
- **SITE INSPECTIONS** Staff performs weekly inspections on all water storage facilities and production wells within our District weekly.
- **VEHICLES/EQUIPMENT** All District vehicles and equipment are working properly at this time.
- MONTHLY METER READS Staff performed 1,495 monthly meter reads for billing. With the increasing number of new meters installed, staff have been spending more time reading these manually. I am currently working with Badger Meter to upgrade meters that will continue to communicate with the Districts antiquated drive by reading system. I received estimates for upgrade and will present with FY 2021/2022 proposed budget.
- WATER SAMPLES Working with our water lab under the guidance of the SWRCB, District staff grab water samples on the 1st or 3rd Tuesday of each month.

Administrative

- **2021 OPERATIONS PLAN** The Districts Operations Lead Randy Gilgo recently completed an updated LDPCSD Operations Plan.
- **DISTRICT RETIREMENT OPTIONS** I have had initial conversations with a representative with UBS financial in regards to retirement savings options. California implemented the CalSavers program two years ago. This requires all employers to offer either the CalSavers plan or another qualified retirement plan. The required date for compliance is based on how many employees a company has. The District must meet this requirement by 2022.
- **TEST WELL LETTER** The Test Well letter was mailed to approximately 80 District property owners. I have had the opportunity to speak with 30 District property owners thus far. I will work with District Engineer/Drilling Contractor to narrow down potential drilling locations once all responses have been received.

Sincerely,	
Patrick McGowan

PERSONNEL COMMITTEE MEETING

Notes/ Recommendation

Meeting Date: 6/4/21

Board Members: Johnson & Sperry

The Personnel Committee met on June 4, 2021, starting at 9:16 AM, adjourning at 10:02 AM. In attendance were Director Sperry, Director Johnson, Board Secretary, and the General Manager.

The proposal is to provide a six percent (6) to all full time employees. This increase would include any potential Cost of Living Adjustments (COLA) for 2021.

A second proposal is to provide a ten percent (10) to all part time employees. This increase would include any potential Cost of Living Adjustments (COLA) for 2021.

The proposed wage increase is based on the information provided to the Personnel Committee in the June 4th meeting packet.

Step increases are not included in the proposed increases. Any employee who earns is still eligible for a Step Increase.

Submitted by:

Director Danny Johnson

Director Donelda (Nellie) Sperry

STAFF REPORT

To: Board of Directors

From: Patrick McGowan

Date: May 17th, 2021

Subject: District Employee Salary Schedule

Description – Our District recently participated in a state wide salary/benefits study through the California Special District Association. The CSDA Administrative Salary & Benefits Survey is designed to provide you with the data necessary to evaluate the salary and benefits offered by special districts throughout California. It serves as a valuable management tool when reviewing, analyzing, and evaluating our District's salary and benefits structure. Approximately 100 Special Districts throughout the State participated in this study. Customized reports were created and comparisons made based on agency type, size, or other demographics. The findings of the salary study highlighted various positions within our organization that are under compensated when compared to the industry standard state wide.

1. LDPCSD General Manager Position Comparison:

Minimum salary - 33% under CSDA avg. Average salary - 27% under CSDA avg. Maximum salary - 28% under CSDA avg.

2. LDPCSD Office Manager/Board Secretary:

Minimum salary -20% under CSDA avg. Average salary -21% under CSDA avg. Maximum salary -25% under CSDA avg.

3. LDPCSD Operations Staff Comparison:

Minimum salary - 20% under CSDA avg. Average salary - 16% under CSDA avg. Maximum salary - 22% under CSDA avg.

The District has established a goal to maintain employee salary and benefits provided, as well as an employment environment conducive to the attraction and retention of high quality, efficient, skilled and highly productive employees. Increasing staff compensation to mirror industry averages is not feasible at this time, however smaller increases can be absorbed in our operating budget. District staff have worked diligently the past two years to minimize outside costs incurred

in maintaining our aging distribution system. The capital saved in District staff performing distribution system repairs has been significant. Our District is in the process of upgrading all aspects of our system at this time in a fiscally responsible manner. I feel it time to reinvest in our most important asset, LDPCSD staff members.

Recommendation – To minimize the impact on the Districts operating budget, while maintaining fair compensation for all District staff, I propose a flat increase across all salary schedules of 6% at this time.

Filters Applied:

This report provides results for the Administrative Salary & Benefits Survey.

These worksheets present numeric data by percentiles, values that divide a list of numbers into quartiles.

- "My District's Data (Percentile)" displays the data you entered and your (corresponding percentile).
- 25th Percentile/first quartile = 25% of the data falls below this percentile.
- 50th Percentile/median = The median represents the middle number where 50% of the answers are lower an 50% are higher.
- 75th Percentile/first quartile = 75% of the data falls below this percentile.

For multiple choice responses:

- The percentage listed in the Median/Selection Rate column represents the percent of total survey respondents selecting that answer.
- In the "My District's Data (Percentile)" column, check marks indicate the answers you selected.

Consumer Price Index, San Francisco Area — April 2021

Area prices were up 1.7 percent over the past two months, up 3.8 percent from a year ago

Prices in the San Francisco area, as measured by the Consumer Price Index for All Urban Consumers (CPI-U), advanced 1.7 percent for the two months ending in April 2021, the U.S. Bureau of Labor Statistics reported today. (See table A.) Regional Commissioner Chris Rosenlund noted that the April increase was influenced by higher prices for shelter and gasoline. (Data in this report are not seasonally adjusted. Accordingly, month-to-month changes may reflect seasonal influences.)

Over the last 12 months, the CPI-U increased 3.8 percent. (See <u>chart 1</u> and <u>table A</u>.) Food prices increased 3.4 percent. Energy prices jumped 23.4 percent, largely the result of an increase in the price of gasoline. The index for all items less food and energy rose 2.9 percent over the year. (See <u>table 1</u>.)

Chart 1. Over-the-year percent change in CPI-U, San Francisco-Oakland-Hayward, CA, April 2018–April 2021

Food

Food prices inched up 0.1 percent for the two months ending in April. (See <u>table 1</u>.) Prices for food away from home edged up 0.1 percent, while prices for food at home were unchanged for the same period. Over the year, food prices increased 3.4 percent. Prices for food away from home increased 5.8 percent. Prices for food at home rose 1.2 percent since a year ago, largely due to a price rise in fruits and vegetables (5.3 percent) and meat, poultry, fish, and eggs (4.8 percent).

Energy

The energy index rose 9.9 percent for the two months ending in April. The increase was mainly due to higher prices for gasoline (14.0 percent). Prices for electricity advanced 6.0 percent, and prices for natural gas service rose 5.6 percent for the same period.

Energy prices jumped 23.4 percent over the year, largely due to higher prices for gasoline (38.0 percent). Prices paid for electricity jumped 12.8 percent, and prices for natural gas service rose 4.5 percent during the past year.

All items less food and energy

The index for all items less food and energy increased 1.4 percent in the latest two-month period. Higher prices for used cars and trucks (11.8 percent), shelter (1.7 percent), and household furnishings and operations (1.4 percent) were partially offset by lower prices for recreation (-1.4 percent) and motor vehicle insurance (-1.3 percent).

Over the year, the index for all items less food and energy rose 2.9 percent. Components contributing to the increase included used cars and trucks (20.2 percent), household furnishings and operations (6.6 percent), and shelter (2.5 percent). Partly offsetting the increases was a price decrease in tuition, other school fees, and childcare (-1.2 percent).

The June 2021 Consumer Price Index for the San Francisco area is scheduled to be released on July 13, 2021.

Coronavirus (COVID-19) Pandemic Impact on April 2021 Consumer Price Index Data

Data collection by personal visit for the Consumer Price Index (CPI) program has been suspended since March 16, 2020. When possible, data normally collected by personal visit were collected either online or by phone. Additionally, data collection in April was affected by the temporary closing or limited operations of certain types of establishments. These factors resulted in an increase in the number of prices considered temporarily unavailable and imputed.

While the CPI program attempted to collect as much data as possible, many indexes are based on smaller amounts of collected prices than usual, and a small number of indexes that are normally published were not published this month. Additional information is available at https://www.bls.gov/covid19/effects-of-covid-19-pandemic-on-consumer-price-index.htm.

Technical Note

The Consumer Price Index (CPI) is a measures of the average change in prices over time in a fixed market basket of goods and services. The Bureau of Labor Statistics publishes CPIs for two population groups: (1) a CPI for All Urban Consumers (CPI-U) which covers approximately 93 percent of the total U.S. population and (2) a CPI for Urban Wage Earners and Clerical Workers (CPI-W) which covers approximately 29 percent of the total U.S. population. The CPI-U includes, in addition to wage earners and clerical workers, groups such as professional, managerial, and technical workers, the self-employed, short-term workers, the unemployed, and retirees and others not in the labor force.

The CPI is based on prices of food, clothing, shelter, and fuels, transportation fares, charges for doctors' and dentists' services, drugs, and the other goods and services that people buy for day-to-day living. Each month, prices are collected in 75 urban areas across the country from about 6,000 housing units and approximately 22,000 retail establishments—department stores, supermarkets, hospitals, filling stations, and other types of stores and service establishments. All taxes directly associated with the purchase and use of items are included in the index.

The index measures price changes from a designated reference date; for most of the CPI-U the reference base is 1982-84 equals 100. An increase of 7 percent from the reference base, for example, is shown as 107.000. Alternatively, that relationship can also be expressed as the price of a base period market basket of goods and services rising from \$100 to \$107. For further details see the CPI home page on the internet at www.bls.gov/cpi and the CPI section of the BLS Handbook of Methods available on the internet at www.bls.gov/opub/hom/cpi.

In calculating the index, price changes for the various items in each location are averaged together with weights that represent their importance in the spending of the appropriate population group. Local data are then combined to obtain a U.S. city average. Because the sample size of a local area is smaller, the local area index is subject to substantially more sampling and other measurement error than the national index. In addition, local indexes are not adjusted for seasonal influences. As a result, local area indexes show greater volatility than the national index, although their long-term trends are quite similar. **NOTE:**Area indexes do not measure differences in the level of prices between cities; they only measure the average change in prices for each area since the base period.

Lake Don Pedro Community Services District Regular Meeting of June 20, 2016

AGENDA SUPPORTING DATA

5. PUBLIC HEARING:

c. Adoption of a Resolution Approving the District 2016-17 Fiscal Year Salary Schedule

Recommended Motion

I move to adopt Resolution 2016-XXXX, Approving the Salary Scale for 2016/17.

Background

The District is required by CalPERS to annually adopt a salary scale if changes to employee wages are made to keep up with inflation. The salary scale is used to establish pay ranges for all employees, with merit salary increases available for some employees based on positive performance. Salary scales are also adjusted on a regular basis by some percentage to keep the scale of wages consistent with the job market from year to year. The salary scale is not established to reflect the capabilities and performance of individual employees; rather it is intended to set a range of salaries to be paid that are in some manner consistent with wages paid to others in the same type of employment, similar industries, and with the same experience, skills and certification requirements.

The District has historically used the Consumer Price Index (CPI) as a measure of the amount of increase needed, and applied some form of cost of living increase annually. Last year, an increase of 2% was included in the budgeted salaries. The CPI for 2016/17 is 2.6%.

Typically the only time a District would not apply some form of cost of living increase to the salary scale is in the event of serious budgetary crisis. Most special districts in the region and state use the CPI change for Urban Clerical Workers as the most relevant measure of necessary changes to wages. The CPI report details an increase of 2.6% for Clerical Workers, which is the recommended amount of increase to be applied to the 2016/17 salary scale.

The draft 2016/17 salary scale, including the 2.6% increase for all classifications at all steps is included. The increase does not apply to contract staff such as your GM, or District Engineer. The cost of the 2.6% increase is approximately \$5,500 per year and your approval is strongly recommended.

Lake Don Pedro Community Services District

STAFF REPORT

To: Board of Directors

From: Patrick McGowan

Date: May 17th, 2021

Subject: District Employee Salary Schedule

Description – Our District recently participated in a state wide salary/benefits study through the California Special District Association. The CSDA Administrative Salary & Benefits Survey is designed to provide you with the data necessary to evaluate the salary and benefits offered by special districts throughout California. It serves as a valuable management tool when reviewing, analyzing, and evaluating our District's salary and benefits structure. Approximately 100 Special Districts throughout the State participated in this study. Customized reports were created and comparisons made based on agency type, size, or other demographics. The findings of the salary study highlighted various positions within our organization that are under compensated when compared to the industry standard state wide.

1. LDPCSD General Manager Position Comparison:

Minimum salary - 33% under CSDA avg. Average salary - 27% under CSDA avg. Maximum salary - 28% under CSDA avg.

2. LDPCSD Office Manager/Board Secretary:

Minimum salary -20% under CSDA avg. Average salary -21% under CSDA avg. Maximum salary -25% under CSDA avg.

3. LDPCSD Operations Staff Comparison:

Minimum salary - 20% under CSDA avg. Average salary - 16% under CSDA avg. Maximum salary - 22% under CSDA avg.

The District has established a goal to maintain employee salary and benefits provided, as well as an employment environment conducive to the attraction and retention of high quality, efficient, skilled and highly productive employees. Increasing staff compensation to mirror industry averages is not feasible at this time, however smaller increases can be absorbed in our operating budget. District staff have worked diligently the past two years to minimize outside costs incurred

in maintaining our aging distribution system. The capital saved in District staff performing distribution system repairs has been significant. Our District is in the process of upgrading all aspects of our system at this time in a fiscally responsible manner. I feel it time to reinvest in our most important asset, LDPCSD staff members.

Recommendation – To minimize the impact on the Districts operating budget, while maintaining fair compensation for all District staff, I propose a flat increase across all salary schedules of 6% at this time.

RESOLUTION 2021-xx

RESOLUTION OF THE BOARD OF DIRECTORS OF THE LAKE DON PEDRO COMMUNITY SERVICES DISTRICT ADOPTING NEW SALARY SCHEDULE INCREASES

WHEREAS, the Lake Don Pedro Community Services District (herein referred to as District) is a local government agency formed and operating in accordance with Section §61000 et seq. of the California Government Code; and

WHEREAS, the District considers revisions to the salaries paid to employees on an annual basis in conjunction with the development and approval of its annual budget; and

^{**}Candidate Statement – Although it is not required, each candidate is requested to submit a candidate statement of no more than 300 words in length. Any statements received in the CSDA office after March 29, 2021 will not be included with the ballot.

My name is Curtis Jorritsma and I'm the General Manager for Hilmar County Water District. I would like to be considered for a position on the California Special Districts Association Board of Directors. Over the past five years, I've learned what it means to operate a special district in California. The impact of special districts in this state and the ability and willingness they have to move forward without the resources of their city and county counterparts is nothing short of amazing.

If elected to the CSDA Board of Directors for the Central Network, I would work to bring awareness to the wide range of special districts within our boundaries and the services that each provides for their specific community. If you're reading this, you are already aware of the benefits CSDA provides its member agencies. My goal would be to continue to bring value to these unique relationships and to assist in expanding their capabilities.

2020 taught us that nothing is permanent and things can and will change at a moment's notice. Strong, informed leadership is critical in those situations as well as in each of our day-to-day activities and operations. I want to be part of that leadership and I am asking for your support to do so.

Patrick McGowan

CSDA Central Network Seat **A**Board of Directors Nominee

Candidate Statement

I am ecstatic to be nominated for Central Network Seat A by Lake Don Pedro Community Services District Board of Directors! I have an extensive twenty year background in construction, operations, and management. In addition to working within local governments for the past thirteen years, I am also a licensed General A Contractor. I spent ten years working for a large municipality located in Central California prior to my arrival at Lake Don Pedro Community Services District. I began in operations and eventually earned a management position within the Utilities Department. In 2014, I was elected as a Director of the City Employee Association representing over five hundred employees. In 2017, I successfully was elected to Vice President of this association. The experiences gained navigating within an employee association, in addition to my operations background, has helped shape my outlook on management. I began my tenure with Lake Don Pedro CSD a little under two years ago. The ability to provide uninterrupted essential services, at reasonable rates to our fee payers, during a global pandemic has been invaluable. We face many hardships within our District, and I am motivated to gain relationships that may assist me in moving forward as a manager. I am excited for the opportunity to work alongside, and grow from other knowledgeable, experienced CSDA members. I believe my unique, diverse skill set can contribute immediately if given the chance. I am eager to gain policy and legislative experience within the Special District network that can assist our community in moving forward in the future.

Central Network Seat A Candidate Statement for Patrick Ostly

Special Districts provide valuable services to the residents of California, yet it is unfortunate that much of our population is still not aware of how Districts affect and improve their daily life. I am a graduate of Cal Poly SLO with a degree in Civil Engineering and have been a registered engineer since 1996. For 22 years as a consulting engineer, I studied, planned, designed, and provided construction services for public water and wastewater Infrastructure Projects. Many of my clients were Sanitary Districts, Water Districts, Utility Districts, and Community Services Districts. I was always amazed that friends and family were mostly ignorant of the important services and infrastructure they unknowingly benefit from every single day.

In 2015 I took on the role of District Manager at North of River Sanitary District in Bakersfield. Previous District Management had commenced modernizing operations at the District, and I continue to push this transition resulting in current District operations and service we are proud of. My experience with wastewater infrastructure has been applied to current assets and the planning and design of future ones.

CSDA has been working hard promoting our Districts to the California public and in representing our needs to elected officials. I look forward to being more involved in these activities.

Director Johnsons request:

I am requesting that the June Agenda include a discussion item for Drought 2021, and the option for the Board to be able to provide recommendations and direction to the Manager.
